【 How to separate and discard garbage 】

- The collection schedule of household garbage is called "Garbage Calendar 2019". Make sure to look carefully at the calendar and leave your trash in the designated areas by 8 AM.

○ **Burnable Garbage** ○
How to discard: use the designated garbage bags

Burnable garbage includes plastics, wood waste, general garbage, styrofoam, stuffed animals, etc.
 ※Please cut any rope and string within 1 m in length and place them in the designated garbage bags.

Excluded item	Newspaper, cardboard, paper drink packs (like juice boxes), other paper, cloth : Please throw these away separately as "recycled resources garbage (group collection)"
---------------	--

○ **Recyclable Garbage** ○
How to discard: use the designated garbage bag

Metals	Metals include pots, pans, umbrellas, small appliances, cans with oil and paint, etc.	
Glass	Glass includes oil bottles, china, cosmetic bottles, window glass, heat resistant glass, etc.	
Cans	Cans include beverage cans, canned food cans, spray cans, confectionery cans, etc. ※ Please take out the contents and rinse. ※ When a spray can is used up, open it in a well-ventilated place.	
	Excluded item	Please take out the contents of oil and paint cans and discard them as "metals".
Bottles	Bottles include beverage bottles, food bottles, etc. ※ Please take out the contents and lightly rinse. ※ Please remove the lid. Discard metal lids as "metals" and plastic lids as "burnable waste." Please discard the part of the lid that cannot be removed as is. ※ Discard broken bottles as "bottles".	
	Excluded item	Remove the contents of the bottles containing any lotions, oils and paints, and discard them in "glass".
Plastic bottles	Container with PET1 symbol. ※ Take out the contents and rinse lightly. Items with a [plastic] symbol are burnable. ※Dispose of the lid and label as "burnable waste".	

○ Recycled Paper and Cloth ○

How to discard: Designated garbage bag

※ Please recycle as much as possible.

Newspaper	Newspapers, newspaper flyer.	
	Excluded item	Please discard oily newspaper and dirty newspaper as "burnable garbage".
Cardboard	Cardboard	
	Excluded item	Please discard oily cardboard and dirty cardboard as "burnable garbage".
Paper containers	Milk cartons, juice boxes, etc. ※ Cut open, wash in water, dry, place in designated garbage bag and discard.	
	Excluded item	Please throw away items lined inside with aluminum and vinyl as "burnable garbage".
Other paper	Other paper includes magazines, catalogs, waste paper, miscellaneous paper, confectionery boxes etc.	
	Excluded item	Please discard oil paper, carbon paper, oily paper, dirty paper as "burnable garbage".
Cloth	Clothing (clothing products) etc.	
	Excluded item	Please discard dirty cloths as "burnable garbage".

※ Please dispose of each item separately.

※ If you want to throw out excluded items as "burnable garbage", please write "dirt mixed" on the garbage bag.

○ Oversized garbage ○

How to discard: Put one oversized garbage seal on each garbage item.

Burnable oversized garbage	Burnable oversized garbage includes furniture, futons, carpets, tatami mats, sofas, garden trees, etc. ※ If you want to carry trimmed garden trees or bamboo directly to Clean Park Five (cleaning facility), be sure to cut them into pieces within 2.5 m in length. The diameter must be less than 20 cm.	
	Unburnable oversized garbage	Unburnable oversized garbage includes stereos, bicycles, pipe beds, stoves etc.
Excluded item		TVs (including flat-screen TVs), air conditioners, washing machines (including dryers), refrigerators (and freezers) and personal computers are not eligible.

※ This is for designated garbage that cannot fit into a garbage bag.

However, the length must be within 2.5 m.

※ Be sure to write your room number and name on the oversized garbage seal.

※ Please separate "burnable oversized garbage" and "unburnable oversized garbage" in the collection area for oversized waste.

※ Depending on where you live, the oversized collection location may be different from the regular garbage collection location. Please check in advance.

○ Garbage that cannot be crushed ○

How to discard: Put one Oversized garbage on each item

(Garbage that can fit in a garbage bag can be placed in a designated garbage bag without purchasing an oversized garbage seal.)

These include steel frames, iron reinforcements/poles, items with iron-array, metallic bats, motors, wires, magnets, etc.

※ Be sure to write your room number and name on the oversized garbage seal or on the designated garbage bag.

※ Please throw away garbage which has an oversized garbage seal attached, or garbage put in a designated garbage bag on the collection day of oversized garbage. Please leave the oversized garbage at the correct oversized garbage collection location.

(Depending on where you live, the oversized collection location may be different from the regular garbage collection location. Please check in advance.)

※ Please be aware that if "garbage that cannot be crushed" is accidentally discarded as "metals", this will cause issues in the cleaning facility and the garbage will not be collected or disposed of.

○ Harmful garbage ○

How to discard: Designated garbage bag

"Dry cell" Batteries	※ You may throw harmful garbage items in a transparent bag instead of a designated garbage bag as long as your room number and name are written on the transparent bag.
Waste fluorescent tube, thermometer	LEDs, fluorescent lamps, incandescent lamps, glow lamps or lava lamps, thermometers, etc. ※ Please put everything in the designated garbage bag regardless of whether or not it is broken.
Batteries	Car battery etc. ※ Take care not to damage or puncture the battery; please put it in a designated garbage bag.

※ Please dispose of each item separately.

If different items are in the same bag, it cannot be sorted so it cannot be collected.

○ Garbage that cannot be collected ○

- 1) Explosives, flammable things
Gas cylinders, cans, and containers with oils and paints.
- 2) Toxic things
Bottles and containers containing poisonous drugs and pesticides.
- 3) Other
Chemicals, concrete, slates, tires, four types of home appliances*, personal computers*, etc.

※ Please consult with your home appliance retailer about these 4 types of home appliances: 《TVs (including flat-screen TVs), air conditioners, washing machines (including dryers), refrigerators (and freezers)》.

※ Your PC manufacturer can collect your PC. Please contact the maker directly to have your PC collected.

● The following items are in violation of Nagasu-Town's garbage collection procedures and cannot be collected.

- 1) Garbage not in designated garbage bags.
(Dry-cell batteries, oversized garbage, garbage that cannot be crushed (that are not thrown away properly.))
- 2) Garbage without an oversized garbage seal attached.
(Oversized garbage, garbage that cannot be crushed)
- 3) Garbage where your room number and name are not written on the garbage bag or seal.)
- 4) Garbage thrown out on the incorrect collection day.
- 5) Garbage that is not separated correctly.
- 6) Garbage discarded after 8 am on collection day.

● About home appliance recycling

Under the Home Appliance Recycling Law, four types of home appliances (air conditioners (including outdoor units), TVs, refrigerators (and freezers), and washing machines (including dryers)) cannot be collected in town.

Please ask the Residential Environment Division for a detailed disposal method.

● We cannot accept 4 kinds of home appliances under the Home Appliances Recycling Law even if they are brought into Clean Park Five (cleaning facilities).

In addition, we cannot collect these appliances even on an oversized garbage collection day.

- **About PC recycling**

Under the Resource Utilization Promotion Law, we cannot collect used PCs.
Please ask the Residential Environment Division for a detailed disposal method.

- **We cannot accept used PCs under the Resource Utilization Promotion Law even if they are brought into Clean Park Five (cleaning facilities).**

In addition, we cannot collect used PCs even on an oversized garbage collection day.

Be sure to drill holes into spray cans and gas cylinders on/from portable butane gas stoves before discarding.

Please note that explosions and fires have occurred in a collection vehicle from Clean Park Five (cleaning facility) in the past.

Please cooperate in order to protect the safety of residents and collection companies.

● Please be careful the following!

- ⊙ Be sure to use up spray cans and cassette cylinders, then open and discard.
- ⊙ Discard gas in a disposable lighter as "metals".
- ⊙ Drill holes in spray cans and gas cylinders in a well-ventilated place away from fire.
These cans contain flammable chemicals - be careful.
- ⊙ If a can cannot be fully emptied, check with the manufacturer indicated on the container for the recommended disposal method.

Q & A about how to throw away garbage

Q How do I throw away futons and carpets?

A As futons and carpets become “flammable oversized garbage”, tie them with a string and place an “oversized garbage seal” on the object.

In addition, if the item is cut into small squares, it can be put in a designated garbage bag and thrown away with “burnable garbage”.

In addition, electric carpets are classified as “garbage that cannot be crushed”.

Please place an “oversized garbage seal” or cut it into small squares about the size of a cushion. Then, put the pieces in a designated garbage bag and throw them away on an oversized garbage collection day.

This is in designated garbage bag, oversized garbage seal dealer.

Q What are the items that can be discarded as “glass”?

A “Glass” includes cosmetic bottles, bottles of hair tonics, mirrors, and pottery.

In addition, oil bottles and heat-resistant glass (such as microwaveable items and sake bottles) are “glass”.

Q What are the items that can be discarded as “bottles”?

A Basically, if it is a bottle of food or beverage, please categorize it as “bottles”. However, please discard heat resistant bottles as “glass”.

Please discard broken bottles as “bottles”.

Ex.) Liquors, juices, drinks, large bottles of pickled plums, etc., bottles with seasoning and honey, etc.

Q Why hasn't the garbage that we sorted been collected yet?

Has it been overlooked?

A Garbage trucks collect one type of garbage at a time.

On garbage collection days with multiple types of garbage being collected, garbage collection times might be delayed.

Garbage is collected until 4 pm, please wait for a while.

※ Garbage in violation of Nagasaki-Town's garbage collection procedures will be marked with details on why it has not been collected.

Q Can I just throw away a disposable lighter?

A After draining the gas inside, please throw it away with “metals”.

If gas remains, there is a risk of explosion or fire during collection or processing. Please remove the gas!

Q What should I do if I cannot tie the designated garbage bag closed when throwing away cardboard or “recyclable garbage” ?

A Please close the garbage bag with gum tape etc. and discard it.

Recyclable paper and cloth (newspaper, cloth, other paper, paper pack) cannot be recycled if it gets wet from the rain.

If it is raining or it is likely to rain, close the garbage bag firmly so that the contents are protected from the rain.

Q Can I throw away spray cans (other than paint and oil) and portable butane gas stove cylinders as they are?

A Once fully used and emptied, open holes in the bottom or sides of spray cans (other than paint and oil) or portable butane gas stove cylinders so that they can be easily identified and discarded as “cans”.

(Please mark where the hole was made with a permanent marker so collectors can easily check and identify the garbage.)

If gas remains, there is a risk of explosion or fire during collection or processing.

※ An explosion caused by a gas cylinder that was incorrectly disposed of during collection time occurred in December 2006 in Nagasu-Town.

«Discarding spray cans and butane gas cylinders»

① Completely empty the contents.

② Before puncturing the can, take a wet dust cloth and cover the can.

③ Keep the can steady with your foot and carefully puncture the side of the bottle through the wet towel as shown in the photo below.

※ Please make a hole in a well-ventilated place.

④ Please put place cans in a designated garbage bag and sort it as “cans” . However, cans containing industrial oil and paints are discarded as “metals”.

Q How should we throw away cutlery such as kitchen knives and razors?

A Wrap the cutting edge in newspaper and discard as “metals”.

However, if the blade is stainless steel, wrap the cutting edge with newspaper or the like, and discard it on a “Garbage that cannot be crushed” collection day (the same day that “oversized garbage” is collected).

The oversized garbage collection place may be different from the usual collection place, please confirm beforehand.

Q How should I throw away rusted steel cans?

A Even if the entire steel can is rusted, it can be recycled if the can itself is firm, so please discard it as "Cans".

However, if the can deforms or breaks, discard it as "metals".

Q How should I throw away the lid removed from cans etc.?

A Please discard as "metals".

Q How should I throw away a dirty plastic bottle?

A Even if you cannot clean the bottom of the bottle, it can be recycled so please discard it as a "plastic bottle".

In addition, when you throw away a plastic bottle that was used as a container for waste oil or paint, please throw it away as "burnable garbage" because it cannot be recycled.

Please write directly on the garbage bag with permanent marker, or write on a piece of paper and paste it on the garbage bag, and throw it away so that the garbage collector can identify it.

Garbage that is not marked is in violation of Nagasu-Town's garbage collection procedures and will not be collected.

Q Can I put together and dispose of harmful waste (dry cell batteries, waste fluorescent tubes, or other batteries) in one bag?

A Harmful garbage cannot be thrown away together in one bag.

Please separate each one and discard it.

Q Even if I use designated garbage bags, why must I write my name and room number on it?

A If there is violation garbage with no name or room number written on it, Nagasu-Town cannot identify who threw away the violation garbage.

If it is anonymous, violation garbage will occur frequently and therefore we cannot promote garbage reduction.

By writing out your room number and name, each individual will be responsible for sorting and throwing away trash responsibly.

«Request for garbage separation»

- Containers for medicine (other than drinks) aren't collected as they pose a danger to workers in waste collection and disposal facilities.
Please consult the store where you purchased the product for disposal method.
- Plastic packing such as direct mail is thrown away as "other paper" in "recycled paper and cloth" in its original unopened state.
Be sure to remove the vinyl and throw it away.
If it is not removed, it will be considered as violation garbage.
- How to throw away harmful waste (dry-cell batteries)
If the bag is transparent, you can discard the "harmful waste" only for dry-cell batteries, even if it is not in the designated garbage bag, but please write your room number and name on the bag.
In addition, when putting the item in the garbage collection box, please divide it from other garbage.

Please carefully check the garbage calendar for 2019 and discard your garbage on its correct collection day at the designated collection location by 8 am.

Thank you for your cooperation.
